

# Damon Ultima & Spark launch

Dr. Gabriele Gündel

## DAMON ULTIMA

The Damon Ultima System is advertised as the first true full expression orthodontic system designed for faster and more precise finishing. It is completely reengineered to virtually eliminate play for precise control of rotation, angulation and torque.

Therefore it promises shorter treatment time by accelerating the finishing phase of our cases.

This course will focus the basics of the Ultima system especially in comparison to the PSL Damon Q bracket and will demonstrate first cases and clinical experiences.

## SPARK

Ormco - Spark has created an advanced clear aligner system that is designed to meet the needs of the orthodontist and deliver your treatment vision. TruGENTM is the latest material innovation, with higher sustained force retention than the leading aligner brand. Spark™ Clear Aligner is designed to be more clear than the leading aligner based on laboratory analysis against a reference standard.

In comparison to the leading Aligner brand Sopark provides a lot of clinical advantages.

This course will give a short summary about the main advantages of Spark and some first clinical experiences.

## VENUE

Amadria Park Hotel Capital Zagreb  
Jurišićeva ul. 22, 10000, Zagreb, Croatia

## DR. GABRIELE GÜNDEL
